

## **ASSUME THE POSITION**

By Emerson Ferrell

While in Haiti, the Lord woke me with the following phrase, "assume the position." I asked the Holy Spirit what He meant and heard the following:

That phrase is spoken most often among law enforcement officials before making an arrest. The "position" is well known among convicted criminals who have been asked to raise their hands above their heads and spread their feet.

The position is one of surrender and submission.

The Holy Spirit explained He was arresting those whose minds and hearts had surrendered and submitted to the reality of physical death in order to taste spiritual resurrection.

He continued by saying, I will not continue to release revelation to those who have made the decision to follow religion and philosophy. The window of opportunity for this generation is drawing to a close and the consciousness of this world will not be tolerated any longer.

The "position" I am looking for is one of total surrender and kingdom consciousness. Those who continue to fight against flesh and blood will fade away without leaving fruit.

Those who attempt to exchange one system for another for the sake of notoriety and fame will lose the time of my refreshing and visitation.

I am waiting on a generation who understands our fight against the devil is to purify our souls, not to attach his face to a person, political party or religion. My servants use the devil for their purification not to attack flesh and blood or preserve their doctrines and consciousness.

I will confound the wise by those whose posture and minds have been formed by my Spirit. My Kingdom is not accessible to spirits who have not been baptized and birthed from within Me.
