

## **PROPHETIC ACCURACY**

By Ana Méndez Ferrell

As the prophetic movement has developed we see more people prophesying, and more prophets arising. Added to that we have entered a time in which prophetic accuracy is vital because we are hearing words "from God" coming from recognized prophets that oppose one another.

Especially in America we are constantly hearing words in TV and the Web speaking about catastrophes and terrorism, and most are inaccurate.

In the next two years this problem will increase dramatically because of the rumors about 2012 being the end of the world and the second coming of Christ.

So, we should understand what are the factors that can affect the deliverance of a prophetic message.

The spiritual realm is alive and active all the time. Prophets either hear from the kingdom of God or the realm of darkness.

The human mind forms its opinions and beliefs from either one of these two kingdoms. It is from this structure our prejudices and biases color our opinions.

Fear is the biggest factor in the realm of darkness and will create thoughts of this kind and consequently release words accordingly.

A mind set of mercy and love will perform the same way.

Now words are spirit. Jesus said: my words are Spirit and are life; But satan's words and man's words from his fallen nature are also spirit and formed in darkness. What we speak produce life or death.

Prov. 18:21 Death and **life** ARE in the power of the tongue: and they that love it shall eat the fruit thereof.

Words released in the air create a cloak over the atmosphere, one of darkness or one of light.

Satan is called the Prince of the air and he makes sure all the words of

fear and destruction are loosed through the airwaves including cinema and music.

This covering creates a national and also worldwide, consciousness that affect people's streams of thinking like a rushing river.

We should take this into consideration before saying, "thus says the Lord." Otherwise we run the risk of hearing "words" from inside the veil of darkness and fear.

But if I remove this obstacle and pierce the heavenly realm of righteousness, peace and joy in the Holy Spirit I know I am hearing from God's kingdom. This improves the chances of my prophecies being accurate.

Please take this into consideration because there is a major rushing river sent by the enemy to drown the world in fear concerning the 2012 predictions of the end of the world.

Just 10 years ago the same voices were warning of impending disaster over Y2K.

The most dedicated Doctors of the Law, Scribes, and priests in Jesus' time could not receive him as the Messiah because of the preconceived ideas they had about His first coming.

They had everything so clear in their theologies on how this event would be, that when it happened differently they were not able to change their way of thinking and they crucified Him.

We are facing similar times and you could miss your greatest hour of visitation.

Doctrines concerning the end times are so strongly rooted in the minds of many, that if God moves differently they would not recognize Him either and will also crucify those that follow Him.

In His days on the Earth Jesus found few to whom he could speak. Today He is looking for those that can hear Him and refuse to be taken by the rush of fear and predetermined thought.

Don't put the Holy Spirit in a box and more importantly listen for the sound of His voice outside the veil of darkness.
